proceedings and is not to be based upon the facts which led to the proceedings.

R. M. Magraw is back at Hienzha from a recent business trip over in Colorado.

Mutual Coal company expects to be shipping out of Spring Canyon in about five weeks. A mile and a half of railroad track remains to be laid.

Four hundred laborers and miners were killed in a coal mine explosion in the Ubi Li province of China on Thursday of last week. Smoke caused most of the deaths.

After deliberating many weeks, the state public utilities commission has rendered a decision granting advanced rates that will add approximately a million dollars annually to the revenue of the Utah Power and light company. The decision came as the result of an investigation by the commission of about fifty of the largest power users, who were buying their electric energy on special contract on a wholesale basis. Several Carbon county coal properties are hit hard. They may put in their own plants.

The Intermountain Development company proposes to issue in Utah \$1,000,000 of preferred stock to raise money for the purpose of buying options and otherwise acting as a holding company in the development of various Utah and Nevada industries. The company is at present planning to develop the Uradu Oil company, which has a plant near the Utah and Colorado state line and certain silver properties in Nevada. It is also contemplating steps in other oil properties as well as in coal and hydrocarbons.

"Many operating amounts of coal companies are padded for the purpose of avoiding the federal income tax," declared Gov. James P. Goodrich in an address at a good roads meeting at Cannonville, Ind., a few days ago in discussing orders of the special coal and food commission, which recently fixed coal prices in Indiana. He declared that if the mine operators continue their refusal to furnish coal upon the order of the commission "all the facts in the possession of the commission will be given to the public."

Discussing the assertion of Phil H. Penna, secretary of the Indiana Bituminous Coal Operators' association, that the mine owners had no intention of complying with the orders of the commission, the governor said that men in Ohio, who before the war, were content with salaries of from \$5000 to \$10,000, were now drawing \$30,000 and \$40,000, for managing mines. "I don't think Penna or any one else connected with the operators' association wants the inside facts laid before the people of the state," says Governor Goodrich, who himself is a coal mine operator.

HAROLD G. NELMS WEDDED
TO CALDWELL IDA, GIRL

Attended by relatives and a few intimate friends of the bride and the groom, a quiet but very pretty wedding took place at 7:30 o'clock on Wednesday evening, October 6, 1920, at the residence of the bride's parents at Sunny Slope, when Alva, daughter of Mr. and Mrs. Fred Rogers, was united in marriage to Harold G. Nelms, son of Mr. and Mrs. G. E. Nelms, of this city, says the Caldwell (Ida.) Tribune. Daffodils, azaleas and roses were used effectively in the living room, where the ceremony was performed by Rev. David H. Hare of the Presbyterian church. The bride and groom entered unattended. The bride was most beautifully gowned in white and embroidered georgette over white satin. A bouquets wedding supper was served immediately following the ceremony, after which Mr. and Mrs. Nelms came to this city and immediately went to housekeeping at their new home at Fifth and Dearborn. Mrs. Nelms is one of Caldwell's popular young ladies and has been employed for the past several years at the local telephone office. The groom is also very popular in the younger set and is employed in the bookkeeping department of the Commercial bank.

DOCTORS ADVISED TO
KEEP WITHIN BOUNDS

The state industrial commission in a circular letter advises physicians that the practice of making too many visits to victims of industrial accidents, where the doctors are paid by the visit, will not be tolerated, and that hereafter bills in such cases must be itemized. The circular letter was sent out upon the advice of the Utah Medical association, which in many cases stands sponsor for the adjudication of differences between the doctor and the patient. The letter of the commission calls attention to the fact that a new schedule of fees was adopted in July, and that this is still in force.

American hemp is now used extensively with flax in shoe thread, the United States department of agriculture finds. Without the Russian supply flax is not available in sufficient quantities to supply the demand.

That good printing. The Sun.

N. T. PORTER,
Bank Commissioner.

S. W. GOLDING ESPECIALLY
FITTED FOR AGENSHIP

R. W. Golding, the democratic candidate for county assessor, is widely known in Carbon county. However, there are a number of facts concerning his activities and career which especially prove his absolute fitness for the office to which he aspires.

His training and education and experience especially qualify him for the office of county assessor. He is a Utah through and through, having been born and reared in this state. He entered Snow Academy at Ephraim at the age of 18 years and continued his attendance at that institution until he was graduated from the normal department. While there he also took a business course under Thomas A. Best, today considered one of Utah's best accountants.

After graduation he entered the school teaching profession, but managed also to spend several terms at the University of Utah and there obtained units enough that a life diploma was granted him by the state board of education. He taught school eleven years, eight of which has been in Carbon county, including one year at the Carbon county high. He served the county creditably as superintendent of schools two and a half years. During his incumbency as superintendent the transition of the old system to the consolidated was accomplished. In this great work he showed his skill and ability as an organizer. The past three years he has devoted his entire time to business affairs. He has had and is having agricultural experience, having owned one of the principal farms in the Wellington district. He is married and has a family to share the beautiful home and surroundings. The people of Carbon county will be satisfied with the assessments placed upon their belongings with his election, November 24, next.

Democratic County Central Committee
Neil M. Madsen, Chairman.

WILLIAM EDMAN, NATIVE OF
UTAH, UP FOR COMMISSIONER

William Edman, whom the democrats have named for the commission-ership for two years, is a resident of Castle Gate. He was born at Ogden forty-one years ago and lived at Salem in Utah county from the time he was a year old until he attained manhood. Then he went to the quartz mines at Mercer and elsewhere in this state until some seventeen years since he located at Castle Gate and has been an employee of the Utah Fuel company and the Green Valley company ever since. No employee of the several companies of the Utah Fuel company stands higher in the estimation of those about him than does William Edman. He has been a workman of the fuel kind all his life. At Castle Gate, where he is the best known, he has been a promoter of baseball, clean sports of every kind and has done much to better social conditions of the camp all around. Those who know him best realize his fitness for a commissionership. He has the good, hard sense and business ability that is required for the place. The voters of Carbon county can make no mistake in selecting him. Again, that end of the county is entitled to representation on the board. William Edman is honest, capable and above small things. In nominating him for the place the delegates to the convention had in mind the fact that if elected he will also represent the large interests up Spring Canyon.

Democratic County Central Committee
Neil M. Madsen, Chairman.

James Fronties, who a few months ago conducted an automobile stage line out of Helper to the Utah Basin country, shot himself at Salt Lake City Wednesday evening of last week and later was taken to a hospital, where he died early Friday morning from a bullet wound in the head. Financial troubles are believed to be at the bottom of the act. He has two divorced wives, one in Idaho and the other in Zion, and a couple of children by the first wife. His second wife is a niece of Mrs. H. M. Pope of Rich-son. The suicide occurred after he and other friends had been entertained by the Pops at the Culien Hotel.

government has decided to allow the packers to perfect their selling agreement.

C. H. Stewart has resigned as president of the state live stock board. He will close his campaign with a rally in Salt Lake City the evening of November 1st. Utah followers are planning a torchlight parade for that night.

The annual meeting of the Utah Cattle and Horsegrowers will be held at Zion, December 14th, next, at the time of the cattlegrowers convention of twelve Western states.

The itinerary of Parley P. Christensen, the candidate for president on the farmer-labor ticket, shows that he will close his campaign with a rally in Salt Lake City the evening of November 1st. Utah followers are planning a torchlight parade for that night.

Former President William Howard Taft is to speak at Zion in the take-nale next Monday.

Tip Top—the flour of the hour—never fails to make the best of bread. Indicate that your grocer gives you Tip Top—Adv.

Most people seem unable to stand great prosperity, but fortunately most people don't have a chance to.

It is quite a comfort occasionally to get into a company that does not discuss tire and engine troubles and has nothing worse than sickness or bad business to worry about.

That is just what we believe. Our knowledge is the result of years of experience with drugs. We dare not recommend every patent medicine and secret formula. We do not know what they contain. We do recommend, however, certain good ones and guarantee them to be just what they claim to be. They are an open formula remedy, and we, knowing what they contain, are willing to back them to the limit as the best the drug world produces.
